DTSC News Feed is a weekly email that pulls together short updates and internet links to keep you informed about the latest accomplishments and news highlights at the California Department of Toxic Substances Control (DTSC).

August 28, 2015

- DTSC announced funding for initial cleanup and further testing for the expanded area around the Exide facility in Vernon.
- DTSC will receive a \$350,000 reimbursement for the cleanup costs incurred for cleaning up arsenic, chromium and copper contamination at a former wood-preserving site in Elmira.
- Check out the latest numbers on the cleanup of residential properties near the Exide facility in Vernon - 153 properties complete and more than 8,500 tons of soil removed.
- A former brownfield site in Pittsburg which is home to 83,000 solar panels will begin operation in October. DTSC supervised the cleanup of the 104-acre piece of land.
